

ZeraDur™

EPOXY GARAGE & COMMERCIAL FLOOR COATING

An Attractive Non-Slip “Showroom” Quality Finish

ZeraDur™ 99SC
3.79 litre (1 U.S. gal.) Garage Floor Kit
(Available in Grey, Beige and Clear)

ZeraDur™ 100
11 litre (2.9 U.S. gal.) kit
(Available in Clear & 16 Standard Colours)

We provide homeowners, shop owners and facility managers the ability to apply a commercial grade epoxy floor coating without the cost of a professional installation. Using our cutting-edge “Do-It-Yourself” technology, you can turn a dirty, unsightly or damaged garage floor into an upscale “showroom quality” finish.

Not only will ZeraDur™ garage floor coating add value to your investment, but it would also eliminate the need for future floor repairs caused by salts and chemicals that breakdown the unprotected concrete surfaces. This coating is 100% solids, odourless, easy to apply and free of solvents and air-pollutants. The non-slip additive is added directly to the coating and blended in before use, allowing for uniform installation!

ZeraDur™ is a self-priming floor coating. However, for optimal performance, a number of epoxy-based primers may be used including ZeraDite™ W-40, ZeraPrime™ 95SC and ZeraPrime™ W-130FS. Zeraus also offers a waterborne epoxy coating for garage and commercial flooring applications.

Imagine a clean, shiny garage floor that looks great and lasts for years!

- ✓ Attractive uniform non-slip finish
- ✓ Low odour & environmentally friendly
- ✓ 2-part 100% solids durable coating
- ✓ Superior adhesion to concrete
- ✓ Will not crack, peel or blister
- ✓ Resistant to hot tire pick-up
- ✓ Impervious to water, salts, oil & gasoline
- ✓ Easy to clean & maintain
- ✓ Available in grey, beige and clear
